NUMBER 1

Major Martin, Round The World Flight Commander Believed Lost In Alaskan Waters Says Message

Flyers Were Nearing
Chignik Enroute From
Seward When It Was
Noted Martin Missing.

COMRADES SEARCH

Washington, April 16 (INS)—Major Frederick L. Martin, leader of the army "round the world" flight, is missing and may have been lost in Alaska waters, according to a cablegram received here this morning by the army airmen.

The report on Major Martin being missing was sent by two of his fellow officers on the flight, Lieutenants Bazel and Smith.

They reported the flight chief was last seen headed west, near Cape Igvak, in Northwestern Alaska. The waters of Kialaglak and Portage bays, both contiguous to Cape Igvak, are being searched.

Major Martin was flying second in the formation last night when he dropped out of the flight, according to the message. He was believed to have landed in a bay south of the Aleutian Islands.

Destroyers from Seward have been dispatched to comb the waters for trace of the missing flight leader, the message said and in addition his comrades are circling the area for sight of him or his machine.

A J. time Major Martin dropped out of the flight, Lieut. Nelson was leading it from Seward into Chignik, their scheduled stop for last night. Nelson, the message said, did not realize the commander had dropped out for some time after his disappearance.

The other three planes landed at Chignik in good condition at 4:30 p. m. Telegrams have been dispatched to Kananak to rush boats to aid in the search if there are any available in the port.

ELECTION BRINGS BARK OF RIFLE IN THE HERRIN REGION

Marion, Ill., April 16. (INS).—Klan Lysenby was shot in the leg here about two a. m. today when a carload of gunmen swooped down on the home of Sam T. Stearns, exalted cyclops of the Marion Ku Klux Klan and fired about 20 bullets into the house.

Lysenby, one of the klansmen indicted several weeks ago, was the only one hit during the fusillade. The occupants of the house sought safety by lying on the floor. Nearly all the windows in the house were shot out and much damage done.

No arrests were made. Sheriff George Galligan denied he had requested troops.

Herrin, Ill., April 16. (INS).—Guns blazed again in bloody Williamson county early today, following a renewal of warfare between Ku Klux Klansmen and an organization termed the Knights of the Flaming Circle.

Sheriff George Galligan has asked for troops to be sent, but it was said here today that the request had not been granted.

Following the arrests here late yesterday of City Judge E. N. Bowen, John Garavito and Dominick Loni by B. Glenn Young, on charges of illegal vote gathering in the city election here yesterday, an attack was made at 3 a. m. today on the home of Sam T. Stearns, at Marion, grand cyclops of the Marion Ku Klux Klan.

More than 35 shots were poured into Stearns' home and a guard named Lysenby was wounded seriously. Lysenby, it was said, was one of several guards at the cyclops' home.

Klan supporters claimed a victory in the election on returns, available today. They stated that three of four klansmen elected had the endorsement of the Klan.

PENNSY-GRAMS

New Castle, Pa.,—Mrs. H. R. Jones of Edenburg, near here, today exhibiting a record size egg laid by her white Leghorn hen yesterday. The egg measured seven by eight and one quarter inches in circumference. Its weight was 1/2 of a pound.

Washington, Pa.,—Fred S. Bridges, a world war veteran is now chief of police of this city. Bridges was chosen head of police by the city council yesterday when 11 partisans were also selected out of 50 applicants for the position. George B. Hines, the former chief was retained as patrolman.

Munhall, Pa.,—Policemen Lebed and Davis are suffering bites today received from a monkey who they tried to rescue from dogs late yesterday. The monkey took refuge on a porch roof when the dogs cornered him. One of the law officers had his ear bitten and the other his hand. The monkey was lodged in jail here.

Philadelphia, April 16. (INS).—A J. Anlo Devaux, on a prominent chairman and noted polo player, has been adjudged insane and in an asylum here, it became known today.

Devaux's affliction is attributed to injuries sustained in repeated falls from his horse. He was undergoing treatment in the institution for nearly a year.

Philadelphia—Two thousand foot and mounted traffic policemen changed beats today under an order issued by Director of Public Safety Butler. Butler's purpose is to eliminate favoritism and familiarity with law breakers.

Washington, April 16. (INS).—President Coolidge today tentatively accepted an invitation to deliver an address in Philadelphia on July 4.

CYRUS T. HUTTON DIES

Death yesterday entered one of Clearfield's homes and took the form of a man who had a wide circle of friends. Cyrus T. Hutton who for several years after coming here from Woodland, had his home at 610 McBride street, passed quietly to eternal rest yesterday afternoon at about 2:30 o'clock after an illness of almost a year. He is survived by his wife, Jane, and one child, a daughter, now Mrs. Madeline Sterling. Mr. Hutton was a member of the Mechanics lodge. Funeral services will be held from the home on Friday afternoon at 2:30 o'clock with interment at Hillcrest.

GOT LICENSE AT HOLLIDAYSBURG

Howard Kevin Kline and Miss Mae Shaffer, both of Clearfield, were among the couples taking out marriage licenses at Hollidaysburg Monday.

E. A. Martle, of Snow Shoe, transacted business in Clearfield yesterday and today.

Record Flier

Mrs. Oliver Alkey is the first woman to fly across the English Channel with a passenger. She is also the first woman to obtain an English air pilot's license.

COOLIDGE BROUGHT FACE TO FACE WITH THE JAP PROBLEM

By GEORGE R. HOLMES
J. N. S. Staff Correspondent
Washington, April 16.—President Coolidge was face to face today with the most difficult decision that has thus far confronted him as Chief Executive—whether to sign or to veto Japanese Exclusion as set forth in the new Immigration bill.

A difficult decision even under the most sanguine of circumstances, the President's decision in the matter is made doubly difficult at this time because of the uproar of the politics that sit ever at the elbow of a presidential candidate.

His advisers are divided themselves—and considerably worried. Those who look only at the international aspect of the situation are frankly fearful that if the President approves the Legislation it will provide an affront to Japan that will undo twenty years of careful diplomacy and turn the greatest power in the Orient into a passive if not open enemy of America and American interests in the Far East. They see the beneficial results of the Washington arms conference and American generosity to Japanese earthquake sufferers wiped out in one stroke of the Presidential pen.

One the other hand, Mr. Coolidge's political advisers are exceedingly apprehensive as to what may happen to Mr. Coolidge, the candidate, should he veto the Exclusion. For a generation the Pacific coast and the far west generally have sought to exclude Japanese immigration by Federal statute. Now that the long fight is won it would be "political suicide" if they claim for the President to nullify the fruits of that victory by vetoing the Exclusion measure. To do so they say, would inflame the whole Pacific coast and turn a half dozen states badly over to the Democratic party.

The President has not yet made any definite decision it was said at the White House today. He will have several weeks to make up his mind about the differences between the Senate and House Immigration bills will have to be adjusted in conference before he is called upon to act. The Japanese Exclusion feature, however, is the same in both bills, so that in this respect there is seemingly no escape from this part of the decision.

Opinion is divided among the President's advisers, not only as to whether he should sign the bill, but also as to whether he will.

Senators upon whose advice, Mr. Coolidge has leaned in the past, privately expressed the belief he would approve it. They have pointed out to him that any measure that passes the house by nearly five to one and the Senate unanimously constitutes a reflection of public sentiment that no President, much less a candidate can afford to ignore. They have assured him, too, that a veto will be met with a prompt passage over a veto.

Consequently they have pointed out a veto will be useless and only needlessly inflame the Pacific coast. On the other hand there is no cabinet officer on whose advice Mr. Coolidge leans more heavily than Secretary Hughes, an open and avowed opponent of the Exclusion amendment.

Mr. Hughes believes he has done more to cement friendly relations between the United States and Japan than any other Secretary of State in recent years and it is not expected he will remain passive while an act is accomplished that he believes destroys most of his work.

"A Hobson Choice," was the description applied to the President's dilemma today by neutral observers.

Mrs. M. J. McGowan, of DuBois, attended the funeral of Mrs. Hugh Dougherty this morning.

Led "Dual Life"
Mrs. Anna Beswick, gray-haired matron, who, despite her years, finds herself the center of a melodramatic "dual life" adventure in Philadelphia. Held under bail of \$5000, it is now alleged that this mother of 15 children lived part of her life as the wife of W. C. Martin, banker, and the other part as wife of Samuel Beswick, carpenter.

TROUT'S TEETH GLANCE OFF FROZEN BAIT AND FISHERMEN HAVE A HARD TIME HOOKING SPECKLED BEAUTIES

By J. D. C.
Those dyed-in-the-wool trout fishermen who would wade snow to their "belly bands" to get onto the favorite trout streams, hid themselves mountainward yesterday morning despite the "congealed atmosphere" and busied themselves for a part of the day keeping warm while thawing out their lines after each cast into the frigid torrent of the particular trout stream attacked.

The catch reported thus far was away below the "first day" strings of other years. Our office battled 688 2-3's in the stay at home ranks, while the Ad Man, the only damphool in the outfit, froze his fingers and carmined his nose on Lick Run, while succeeding in garnering two brown trout, ten and twelve inches long. "Gerry" Wallace aided and abetted him in his disregard of the weather and got an even dozen "speckled ones" for his freezing.

Ralph Jordan got two "little devils" on Lick Run, a couple of the fellows "Jordy" usually meets on the run being unable to get out yesterday.

Lawrence Howe snarped seventeen on Montgomery while a companion got nineteen during the afternoon. For ourselves we are acquiring wisdom with age and decided that any time we cared to fish for "frozen fish" it was but a short step across Market street to Bill Thern's fish box, where the catch is sure and surrounding conditions more pleasant than in the case twelve miles out on the mountains.

Nightingale says he would have caught more than two had he had some way of thawing out his bait before every cast, as the trout would strike alright, but their teeth would glance off the frozen worm before he was able to snag them. It was pretty cold alright, but, we must confess, we can't believe that tale. Why is it that a fisherman can't tell the truth now?

EXPERT ALIENISTS WILL TESTIFY IN THAW TRIAL TODAY

By GEORGE T. HOOK
J. N. S. Staff Correspondent
Philadelphia, April 16.—A day of testimony by expert alienists in the trial of Harry K. Thaw, was indicated when the third day of Thaw's sanity plea trial opened before Judge Monaghan and a jury here today.

Incidentally, it became known that the trial will extend over into next week. An Easter recess will be taken by the court tomorrow that will include good Friday and Saturday sessions, it was said, will be resumed Monday, April 21.

Dr. George Wilson, a specialist in mental and nervous diseases, was the second alienist to be called to the witness stand. He echoed the belief of Dr. Charles K. Mills, noted psychiatrist, who bore the brunt of examination and cross-examination during the first two days of the trial, when he said that Thaw in his estimation "is a sane man."

Dr. Wilson was at one time associated with Dr. Mills, and at present has connections with five hospitals as consulting neurologist and is an instructor in nervous diseases at the University of Pennsylvania School of medicine. He examined Thaw twice since April 2, 1924, he said, and in each instance found him possessed of normal faculties.

"His release," Dr. Wilson testified "would not be public menace. He is a sane man and by far not a dangerous individual."

According to former Judge John M.

POMONA GRANGE MEETS TOMORROW AT CURWENSVILLE

Clearfield County Pomona Grange No. 33 will meet in Susquehanna Grange Hall, Curwensville, Pa. Thursday, April 17, 1934. Following is the program:

10:00 A. M.
Fifth degree opening
Music Grange
Address of Welcome
Master of Susquehanna Grange
Response Marjorie Bush
Naming of Committees
Report of Committees
Report of Fire Insurance Company
Report of Subordinate Granges
1:30 P. M.
Song
Recitation Mrs. N. C. Ashenbalter
"Lowering Local and County Taxation" Harrison Straw
General discussion
Music Susquehanna Grange
"Shall We Increase or Decrease Production?" G. B. Wachob
General Discussion
Song
"The Use of Dynamite on Farm" Raymond Ogden
"Sunday Dishes Without Much Sunday Work" Mrs. John Bloom
Orchard Spraying D. H. Watts
General Business
7:30 P. M.

Music
Recitation Miss Irvin
Address Rev. Conley
Recitation Elizabeth Reed
Song By the Grange
Monologue Mrs. A. W. ...
Conferring Fifth Degree.

DR. BUSEY, "MAN OF MYSTERY", TAKEN AT SAN ANTONIO

Washington, April 16 (INS).—Dr. A. C. Busey, the "Man of Mystery" who claimed to have knowledge of the inside story of the Mer Rouge "hooded mob" murders that shocked the nation two years ago, and who disappeared from the federal penitentiary in Atlanta several weeks ago, has been arrested in San Antonio, Texas, by department of justice agents, it was announced here today.

It was Busey who first revealed, through International News Service that Thomas F. Richards, one of the men supposed to have been killed by the hooded mob of Morehouse Parish La., is still alive.

Richards, he said, was kidnapped and has since been held a prisoner by the men who killed Watt Daniels. Busey disappeared from the prison farm at Atlanta several weeks ago, following a number of visits he had received from national officers of the Ku Klux Klan. At the time, prison officials were uncertain as to whether he had simply escaped or if his own volition, or had been kidnapped by those who feared the exposures he was in a position to make.

The capture of Busey and the evidence which the Department of Justice has secured subsequent to the publication by the International News Service of the inside story of the infamous Mer Rouge case probably will result in the re-opening of the whole case, it was learned today. Wm. J. Burns, Chief of the Bureau of Investigation of the Department of Justice, whose men found the fugitive, declared today that the Department now has "complete evidence" against the perpetrators of the Mer Rouge killings and that this information has been turned over to Gov. John M. Parker, of Louisiana a foe of the Klan.

Mr. and Mrs. Al Fullington and children drove to Cleveland, Ohio, today, where Mr. Fullington will purchase and bring home a new and up-to-date jitney bus for the Fullington Auto Bus Co. Mrs. Frank Connelly and Mrs. W. J. Leary accompanied the Fullingtons as far as Elyria, Ohio, where they will visit relatives.

netted with the association. The shipwreckings in the Broad Top field have closed down the protest against the bonus operative there.

It is reported that almost all union workings in the Broad Top field have closed down the protest against the bonus operative there.

BASEBALL LEANS TO MEET TOMORROW TO O. K. THE PLAN

Representatives of Philadelphia, Ocala, DuBois and Clearfield met in the office of J. H. Robinson, in the Latham building, yesterday afternoon and adopted tentatively a constitution and by-laws for the baseball league proposed for this section.

According to the arrangement of the preliminary meeting held at Philadelphia a couple of weeks ago the proposed constitution and by-laws were to be prepared by a committee of two members from each of the towns mentioned and when they had completed and read upon same the document was then to be presented to a general meeting of the fans in the different towns for final adoption by them, and in order that every fan might know just what the league expects to accomplish in the way of baseball this summer.

The meeting of Clearfield fans will be held in the Arbitration room of the Court House tomorrow (Thursday) evening at 8 o'clock and every body interested in good, clean, honest baseball should be present at the meeting.

It is the purpose of the league to open the baseball season on May 26th and close on Labor Day. This will give a season of 33 games and a committee to arrange the schedule for same will be appointed following the final ratification by all the towns of the constitution and by-laws of the league.

Those interested in the movement will confine the different teams to purely home talent and propose getting away for all time from the conservative pro and anti-pro baseball of the past. If interested come out Thursday evening.

Five Police Officers Shot Chasing Gunman From Gary To Another Town

Gary, Ind., April 16 (INS).—Three Gary police officers fell wounded in a running gun battle which traced its crizzling snarl from Indiana Harbor to Gary and claimed five wounded early today before its final victim fell.

William English, operator police telephone switchboard, shot through chest and leg; may die.

Motorcycle policeman Omarul Paschall, shot through hand.

Patrolman John Feigle, shot through both legs and through hand. The fleeing desperado, whose gun started the pitched battle, was believed dying in the Murphy hospital, shot through the head and four times through the arm. He gave physicians the name of Joseph Bonaparte and said his relatives were in Mexico City.

In Indiana Harbor, Bonaparte shot and probably fatally wounded his pal, Francisco Jacinto.

The motive for the shooting was believed to be in falling out of underworld companions. After shooting Jacinto, Bonaparte boarded an interurban for Gary. Police had been notified. Patrolman Feigle walking his beat saw Bonaparte alight from the interurban. He called on him to halt and the desperado opened fire. Feigle fell wounded, returning the fugitive's fire, as he fell.

English came running from a nearby cafe and Bonaparte fired one shot at him before turning to fight again. English followed, shooting.

Paschall joined him. The two tailed Bonaparte to the Italian station of Gary, cornered him in outside airfare and shot it out with him.

GERMANY ACCEPTS DAWES REPORT IN PRINCIPAL

Paris, April 16 (INS).—A German communication answering and accepting in principle the Dawes Reparation report was handed to the Reparations Commission at 6 o'clock this evening by Herr Mayer, representative of the Berlin Government.

The German envoy told International News Service the note was "very affirmative," but "short, containing only two paragraphs."

BACK TO THE WILSON REGIME IN TODAY'S PROBING

By Wm. K. Hutchinson
(I. N. S. Staff Correspondent.)
Washington, April 15.—The Wheeler-Brookhart committee, investigating the Department of Justice, went back to the Wilson administration today to provide its daily sensation.

Geo. W. Storck, a former agent of the department, testified that Martin E. Kern, purchaser of the Bosch Magneto Company from former Attorney General A. Mitchell Palmer, had "loaned" \$10,000 to Joseph Guffey, Pennsylvania political leader, in 1919, "to obtain liquor permits." Storck said Kern himself told him of the deal, and declared the money was to be used by W. P. Hindman, brother of the state prohibition director in Pennsylvania at the time.

"Old Stuff" Says Guffey.
Pittsburgh, Pa., April 16. (INS.)—Joseph F. Guffey, one of the most powerful Democratic leaders in the state and nation today disparaged as "old stuff" the testimony before the Wheeler-Brookhart committee today in which he was mentioned as the re-

ipient of a \$10,000 "loan" from Martin E. Kern.
"The entire matter has been gone into before, and has been reported in the Congressional Record," Guffey asserted when told of George W. Storck's testimony.

Little Betty Jane, daughter of Mr. and Mrs. E. W. Morgan, was tendered a surprise yesterday afternoon when a number of her little friends dropped in on her at her home on South Third street to help her celebrate her fourth birthday. A wonderful time was had by all.

Fred Strausbaugh, of Wooster, Ohio, and Harry Strausbaugh, of Sandy Lake, Pa., were called to Clearfield by the serious illness of their mother, Mrs. C. J. Strausbaugh.

Mrs. J. Frank Snyder is quite critically ill at her home, corner West Market street and West Third avenue.

MOTHER DIES AT ST. MARY'S

J. L. McGinnies, of the Market Street Auto Sales Company, was called to St. Mary's today by the sudden death of his mother, which occurred this morning. She had been a sufferer from paralysis for several years but the end came suddenly and without warning this morning.

Nearly Died On Birthday

"On my last birthday eight months ago, I had another close call. We had just finished dinner. My stomach began to hurt me, a minute later I lay unconscious. Three doctors worked on me. I was soaked with a cold sweat when I came to. The next week, telling a friend about it and he advised trying Mayr's Wonderful Remedy. Since taking a course of medicine I have been able to eat anything. I have no more pains or bloating and am feeling better than for ten years." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. At all druggists.

Oxfords of tan calf have straight tips, and follow the new lines for spring.

WALKING surely is a pleasure in grain calf oxfords with the style and foot ease usually found only in made-to-order shoes.

ODDS AND ENDS AND THINGS

By I. D. C.

The following story of what the United States is doing for the veterans of the late war is taken from a special article recently printed in the *New York World*:

The Veterans' Bureau has now four functions established by the act of 1920:

1. Consideration of claims for compensation, insurance and vocational training.

2. Providing of medical care and hospitals for disabled veterans.

3. Providing of vocational training for disabled veterans.

4. Maintenance of insurance records for veterans.

The first major activity of the bureau—that of the consideration of claims for compensation, insurance and vocational training—is the first line of defense, so to speak. It investigates all claims. This is the fact-finding division of the bureau.

It may surprise us to know that to June 30, 1923, a total of 930,286 compensation claims had been filed by the veterans of the late war. In other words, that is the number who asked for help from the United States Treasury since the war. During the fiscal year 1923 claims were filed with this division at the rate of 6,650 a month, or more than 330 a day.

Of this huge number of claims asked for, 444,416 were allowed, and less than 10,000 were undecided at the end of the year. But the bureau investigated and rejected 484,816 claims for compensation.

Now, what about the claims for insurance? When the war started, an act of Congress provided insurance at war-time rates. This resulted in the government assuming a liability

far in excess of the premium received. A man who desired might for and receive insurance in an amount not exceeding \$10,000, payable in case of death or total permanent disability in 240 monthly installments of \$5.75 per thousand insurance.

Up to Jan. 1, 1924, 159,090 insurance claims have been allowed, totaling \$1,399,000,000 insurance.

A University in Itself.
The record further shows that on June 30, 1923, 669,702 veterans had applied for vocational training. Of those eligible, 239,080 had been received and up to Jan. 1, 1924, 271,000 ex-service men had entered vocational training at the expense of the Government.

The second major function of the Veterans' Bureau is to provide free medical and hospital care for every disabled veteran of the late war. For the fiscal year 1923 there were 82,814 admissions to the hospitals under the bureau's supervision. For 1923, 1,526,766 medical and dental examinations were made.

The total number of ex-service men who received hospital treatment during the fiscal year 1923 was 109,683, while treatments were given outside the hospitals numbering over 974,000 cases.

At the close of the fiscal year 1923 there were 91 Government hospitals in operation with a total bed capacity of 25,714. It was necessary for the Veterans' Bureau to utilize 1,009 civilian hospitals where an additional 7,586 patients were cared for.

The third major function of this bureau is to provide vocational training for disabled veterans having vocational handicaps. Director Frank T. Hines of the Veterans' Bureau said in a recent letter to the writer that the total number of ex-service men who had entered vocational training up to Jan. 1, 1924, was 171,552. Of this number 66,014 were still in training.

A close checking of the records of the department shows that of the 445 trades and professions which have been taught to the veterans, the most

popular have been electricity, salesmanship, bookkeeping and shoe-repairing.

How many of us know that 2,340 colleges and schools and 28,000 business establishments were paid by the Veterans' Bureau to help teach these veterans the work required? It is a great university in itself.

Insurance Runs to Billions.
The fourth major function is the maintenance of insurance records. These are kept at headquarters for 340,273 insurance policies (term and converted) representing \$2,885,633,000 insurance. Of these policies \$59,102 monthly premium payments are received by the bureau.

The total liability of the Government—and that means the taxpayer—on account of term (war-time) insurance, largely due to the hazard of war, approximates \$1,800,000,000, leaving \$890,000,000 as the present value of this liability. This will result in the final payment by the United States through its taxpayers of more than \$1,000,000,000.

To care for this great work the United States has been divided into fourteen districts, each maintaining an office, with a large force working along the lines suggested above. In addition other sub-offices were being maintained Nov. 15, 1923, in 92 cities. It is expected the number of sub-offices will ultimately be reduced to twenty-seven for all districts.

What does all this cost the taxpayers of the United States? Let us see. Here is the record of cash expenditures up to and including the estimates for 1924:

1918	\$44,893,000
1919	93,365,000
1920	107,099,000
1921	363,438,000
1922	470,080,000
1923	442,774,000
1924	446,053,000

These are the actual appropriations by Congress and expended by the government for the benefit of the ex-service veterans of the late war.

The expense so far has been staggering. It amounts to \$1,987,762,000. In addition to this item another one of

\$135,591,000 should be added. It is for the \$40 bonus which was voted to every veteran of the late war on discharge, and which was paid out of the Treasury of the United States in February 1922.

Leads Work of All Nations.
This makes a grand total of \$2,122,293,000 paid out to the veterans of the World War in seven years. The American people have spent more money already on the veterans of the last war than had been spent up to 1898 on the veterans of all our other wars combined.

No other nation has ever attempted such a stupendous service program for its soldiers. No other nation could do it and remain solvent.

The estimates for the fiscal year 1924 call for an expenditure of \$446,053,000 for the Veterans' Bureau. This is over \$7,200,000 a day. It is more than we are spending on either the army or the navy for the same period.

On June 30, 1923, the Veterans' Bureau had a total of 5,370 employed working in the city of Washington and 23,804 employees elsewhere, a total of 29,074 technical and clerical employees. It is the largest spending bureau of the government to-day.

TRINITY CHURCH SERVICE

Tonight will be a study of the Day of Retirement, with deeds and words unrecorded in the gospels—crowded, but not set in history, filled up with activities—for the next day in this season Week Jesus perfects his preparations. On the road is He to the hill of suffering, which, while only a small elevation, is higher than Alps or Andes or the famed towering peaks of Northern India. Some things low down are, in the world's esteem, the highest spots on earth. He is on His way, and what a Day! Do you care to follow it even in study, meditation, if you do not follow Him in it? Turn out tonight at Trinity. Sunday school board meeting follows.

Such popularity must be deserved

BIG HITS don't just happen. Popularity doesn't come ready-made.

In pictures, plays or products, success must be built on something REAL.

Thus Chesterfield's swift rise

to popularity was no accident. Smokers were ready for a better cigarette and in Chesterfield they found it.

Taste convinced them. That's why men are turning by thousands to Chesterfield.

Chesterfield

CIGARETTES

They Satisfy—millions!

MILK

The Ideal Between-Meals Lunch

Hardly a person who doesn't feel the impulse to eat something between meals. Perhaps it is 'long about 10:30 in the mornings; perhaps it is about half past three in the afternoon. But not one out of a hundred "sticks it out" until the regular meal time. Something is eaten to appease the hunger.

Go to your nearest fountain or restaurant and take this suggestion—a glass of milk. Possibly you'd like some light custard with it, but get the milk by all means.

To assure you that milk will appease the gnawing at your stomach, we can tell you that an ordinary glass of milk is equal in food value to two large eggs, one large serving of lean meat, two moderate sized potatoes, five tablespoonfuls of cooked cereal, three tablespoonfuls of boiled rice or two slices of bread.

The ideal combination for that lunch would be a glass of milk and a small piece of cake or a cup of custard.

AND THE MILK YOU GET AT ANY FOUNTAIN OR LUNCH COUNTER IN THIS CITY HAS GONE THRU THE PASTEURIZATION PROCESS WHICH ASSURES YOU OF AN ABSOLUTELY PURE PRODUCT.

THE MOST IMPORTANT PEOPLE

Where does supreme power lie today? With school teachers, says H. G. Wells. But they do not realize it. They are, as a class, "shy and retiring souls." In an address to teachers in London, Mr. Wells maintains that they ought to be arrogant and aggressive, and take hold of the world, because they are the most important people on earth.

Some of those listening pedagogues laughed. But Mr. Wells did not laugh. "I want to teach shamelessness to school teachers," he declared. "I want to teach them arrogance and aggressiveness." He insists that such qualities belong by right to educators rather than to soldiers and militaristic statesmen.

Human life has to be reconstructed, and when it is, school teachers will be the very soul and center of it, he says. Only by and through heroic teachers can there be any escape from "the intolerable and unsatisfactory life that mankind lives today."

Most Americans may not regard this life as so "distressful and unsatisfactory," and think that their teachers are doing well enough as matters stand. But as regards the civilized world in general, the British author is probably right. And even here in America, where teachers occupy a more honorable and influential position than they do in other lands, they are far from being satisfied with their lot—or making themselves, at their true vocation, hold their heads higher, trust more to their own judgment, and teach with more freedom.

Progress Editorials for Women

PAINS OF GROWTH NEEDED

By FLORENCE D. LIES

The five Easter chicks peeping so lustily in the sunshine and hopping about like so many downy yellow puff balls, doubtless never even regretted their missing brother. His absence went utterly unnoticed perhaps even to himself, for who shall say that a yellow chick would be foolish enough to regret his few short weeks on this earth, which would end all too soon in the frying pan.

But the fact that the sixth of the half dozen was missing as the rest of them peeped and chirped and tottered about the chicken yard was no fault of his, as he lay in the moist earth, having been decently buried by the small hand that had killed him

with kindness.

The little girl who had watched the entry of the other five into this world with interested rapture, had finally let a tender heart get the better of her patience, and had broken the shell which an hour's feeble pecking on the part of the little chap had failed to pierce.

Of course, you know the sequel. The youthful candidate for the frying pan died at an early age. Had he lived the doctors tell us he would have been deformed. So we bury him tenderly and forget the past.

But the little girl will do well if she fails to forget the lesson when she is a grown woman and has some little chicks of her own.

Pecking one's way through hard shells is part of the business of

growth. Trying to save the young, stunts the hard work of it, is bad business.

Nature knows well that we need every stage of growth. But there are mothers who send their sons and daughters out into the world at twenty, if not deformed, at least almost weaklings, because they have tried to save them from the hard business of growing up.

"Let mother do it for you," is not always as kind as it sounds.

A certain grandmother thought her daughter quite cruel because she taught a seven-year-old daughter to make a cake and held her to measure and rule. "She's too little to be bothered with learning to cook."

As a matter of fact, the young mother had been well taught herself by the very grandmother who had for

gotten her "to learn gives her live-best pleasure."

The cake baking was half fun and half work, for it had to be well done and the whole job finished.

But it marked a stage in growth, and if there were twenty, if not deformed, at least almost weaklings, because they have tried to save them from the hard business of growing up.

"Let mother do it for you," is not always as kind as it sounds.

Valuable Properties

Public utility properties represent large sums of money spent in providing generating stations, transmission lines, and other necessary equipment.

The first money used in the building of the public utility is advanced by men on their belief that the project will be profitable. Their loan, usually represented by common stock, may be termed a speculation, but it is a necessary and a commendable venture, inasmuch as it aids in the promotion of an essential industry.

As the utility grows, new funds are required, and are provided through the sale of bonds. Such loans are not speculative, as the bonds are issued on known property values and earning power and are offered by the bankers only after careful investigation.

The properties of the PENNSYLVANIA ELECTRIC CORPORATION, have been valued by a prominent engineer in the public utility field, at an amount not only largely in excess of the bonds and preferred stocks of the operating companies in the hands of the public, but substantially in excess of the total par value of the

You Want the Pavement That Pays Dividends

You know, from your own happy experience, what a pleasure it is to drive on Portland Cement Concrete Pavement.

You know that Portland Cement Concrete Pavement is skid-proof, rigid, even and unyielding.

You know that no matter how hot the day its surface remains true and even.

You know, too, that the pleasing, light gray color of Concrete makes driving safe by night as well as by day.

Concrete Pavement consists of a definitely proportioned mixture of sand, pebbles or broken stone, and water, held together by the everlasting grip of that tenacious binder, portland cement.

Portland cement is the basic material that makes the Concrete Pavement endure. It holds repair out and the maintenance in.

You want your pavement to be an investment—not an expense. You want to receive continuous dividends in service and satisfaction. That means Portland Cement Concrete Pavement.

Watch for advertisements telling about the many other uses of concrete. And remember that the Portland Cement Association has a free personal service to offer you. Whether you use concrete or have it used for you, this service will give you more for your money.

Our booklets R-3 and R-4 tell many interesting things about Concrete Roads and Streets. Which one would you like us to send? There is no charge.

Largest Telescopes
The world's largest telescope is at Mount Wilson, Cal. It is a reflecting telescope, and the mirror measures 100 inches in diameter. The maximum power is 10,000 diameters; that is to say, the moon would appear as if brought within 25 miles of the observer. The lens for this telescope was made at the glassworks at St. Gobain, France.

Some Money Coming
Life Insurance Prospect - "Why should I take out a policy?" Agent - "Just think: what it would have meant had Hip Van Winkle contracted for an annuity while he was asleep twenty years."

Tom Sims Says

Do you use sheets in your house? They are dangerous. In Boston, a burglar used the sheets to tie a man. One real nice thing about phonographs and player pianos is you never have to sit around and beg them to play.

News from London. Wife really hit her husband with a rolling pin. Perhaps it is a quaint old English custom.

What could be worse than teaching in a girl's school where the answer to all questions is "Because?"

Chicago couple eloped in an airplane. That's the way these days, they fly high at first, but they come down to earth safely.

Lightning is so contrary. In Canada, it went to the trouble of striking twice in the same place.

St. Louis burglar posing as a plumber was caught, perhaps because he forgot to forget his tools.

TYRONE Y. M. C. A. WINS

The Clearfield Y. M. C. A. bowlers found some real opposition in their contest with the Tyrone P. R. R. Y. M. C. A. last night when they journeyed to that town and tried to roll on strange alleys. Not one of the locals found the groove in the Tyrone alleys and the highest single was made by Barney Kinkade, 155.

The railroaders were very much at home, however, and three of them made over the 500 mark, Snyder with an exceptional score of 572.

The boys enjoyed the trip in Warren's car, arriving home at a reasonable hour after receiving a real treat from the Tyrone Y. M. C. A. The locals found the Y. M. C. A. to be a very popular place in Tyrone, with all activities in full swing, and teaming with men and boys from ages 12 to 70.

A return match will be played here Friday night.

The scores:
Tyrone Y.
Dixon 147 152 158 457
Reeder 155 187 176 518
Anderson 151 187 170 505
Snyder 18 178 205 572
McDonald 146 148 118 412

Totals 788 850 827 2465
Clearfield Y.
H. Roscherry 132 129 155 416
E. Warner 115 125 144 384
Ray Roscherry 146 175 164 485
R. W. Kinkade 185 183 161 529
Tom Bryan 143 172 164 479

Totals 746 775
The Business Men's volleyball team had a good trimming while the bowlers were losing. Tyrone volleyed four out of five games from 15-4, 15-7, 15-0, 9-15. The contest was called off before Clearfield was able to even up the score.

Some Money Coming
Life Insurance Prospect - "Why should I take out a policy?" Agent - "Just think: what it would have meant had Hip Van Winkle contracted for an annuity while he was asleep twenty years."

SOME TIMELY HINTS ON GARDEN, LAWN, OUTSIDE PAVEMENTS

Improving the Garden Soil.-If your home garden is composed of heavy, stiff soil that has a tendency to become hard and form a crust after rains, it can be improved by the addition of turning under of manure or any other vegetable matter. Coal ashes worked into the soil are also good but add no fertility. The use of lime at the rate of ten pounds per square rod will improve the soil physically and will produce better crops.

Mixing Concrete.-Don't use too much water in mixing concrete. Slippy mixtures make weak concrete. Gravel matter and silt or loam in the sand or gravel also weakens the concrete.

The Front Lawn.-Do you want a nice front lawn? A little fertilizer will help. The best results are obtained by allowing a good layer of manure to remain on the lawn over winter. Where this is not possible an application of ground bone at the rate of 10 or 15 pounds per 1,000 square feet or a good garden fertilizer at the same rate will give good results. Quick results can be obtained with a mixture of equal parts of nitrate of soda and phosphate used at the rate of ten pounds per 1,000 square feet. An application of lime will help to bring in blue grass. Apply these fertilizers early in May.

Free Nitrogen.-Millions of dollars worth of nitrogen is floating around through the air, free for the asking for fertilizer purposes. Bacteria are small forms of plant life which are willing to work without pay in order to collect this nitrogen from the air and store it in small nodules on the roots of leguminous plants. So, to that leguminous seeds such as alfalfa, sweet clover and soybean are inoculated with the proper type of bacteria. These legume cultures may be secured from any reliable seed house or from the bacteriology division of the Dairy Department at State College.

Heavy Pressure.
A British scientist experimenting with a stream-line filter along which liquids passed under pressure through thousands of tightly packed, perforated paper sheets, took the color out of red wine and to his astonishment instead of the last named a tasteless mud, like water.

ALL WORN OUT?
So Was Mrs. Bruner Who Tells Her Experience.

Are you tired all the time? Worried at night and day? Does your back ache as if it would break? Do you suffer dizziness, headaches, nervous twinges or distressing urinary disorders? You have good cause to be alarmed about your kidneys. Do as many of your townfolk recommend. Use Doan's Pills - a stimulant diuretic to the kidneys. The Clearfield case is convincing.

Mrs. M. M. Bruner, 112 W. Third Ave., says: "My kidneys got out of order and acted too frequently. There was a dull, bearing down pain in my back which was worse when I stooped because I got a sharp kick. It was hard to straighten. Mornings my back was lame and sore. I was bothered with dizzy spells, too. Doan's Pills stopped the backache and relieved me of the trouble."

Pure Butter

When you order "Pure Butter" at our store you get it with all that the word implies.

"Pure"—furnished us by a creamery firm whose reliability is unquestioned; a firm which has satisfied us for the sake of our trade, that this butter is made from the milk of selected, healthy cows; that it is manufactured under hygienic, perfectly clean conditions.

"State College" is the brand, and everybody who eats it agrees with us that it is rich, wholesome and delicious. Try it today.

Another popular butter is a two-pound roll of creamery; many of our customers like it. Tastes good—good.

LET US SHOW YOU WHAT GOODYEAR SERVICE REALLY MEANS

The privilege of selling Goodyear Tires carries with it certain definite responsibilities on our part.

We pledge ourselves, for example, to give you service that will help you get from Goodyear tires all the mileage built into them at the factory. We accept a smaller profit than we might get from certain other brands in order that the manufacturer may put extra quality into the tires themselves. We do this because we implicitly believe that the foundation of a permanent and successful business is satisfied customers.

Keystone
Ice Cream

Sensational! Startling! \$100 Given Away Without A Murmur

Bring in any piece of apparel, any piece of household linen (it may be the most intricate piece of applique designing) the fluffiest dress of your own or the kiddies—bring in anything you would iron with a hand iron and if Miss Maxwell cannot iron it, the \$100 is yours.

*A Demonstration To Prove The Ironing
Day Weariness Is Not Necessary
When You May Install*

The Utenco Electric Ironer

All this week Miss Maxwell will be here showing Clearfield women that it is not necessary to have the ironing day grouch. She will show you that the UTENCO IRONER is absolutely the most wonderful ironing machine on the market today. She will give you a practical demonstration of the UTENCO. She wishes you to come and see the UTENCO work. She wants you to bring the most complicated pieces of ironing you have and she will show you how easy it will be to iron them on the UTENCO.

READ THESE EXCLUSIVE FEATURES

It irons everything—starched things included.
It will not break buttons.
The operator is comfortably seated while working.
It occupies small space—18 x 40 inches.
It is portable—easily moved.
Heat indicator guards against scorching.
Is practically noiseless.
It irons wearing apparel much faster and better.
A minimum of physical effort is required.
Both hands are free at all times.
Instant variable pressure easily obtained.
Operated as economically as electric hand iron.
Is absolutely free from danger to the operator.
Is very attractive in appearance.
Will last a life time.

OPERATES ON VERY LITTLE EXPENSE

Costs you about the same as your washing machine to operate, if you use electricity for heat. If you have an electric range, the UTENCO will go on the same meter to get advantage of the low rate. Driving mechanism attaches to ordinary light socket.

HAS THE SAME PRINCIPLE AS YOUR HAND IRON

The heated roll travels five times faster than the padded roll—same as you shove your present iron back and forth—in a circular motion. Everything is moving in the same direction, which saves wear and tear over the shoe-type ironer and even your hand iron.

Come In and See Miss Maxwell
Operate the Utenco Ironer

W. W. O'Brien

Expert Alienists

(Continued From Page One.)

Patterson, head of Plaintiff Counsel, Thaw may take the stand tomorrow to testify in his own behalf. This, it was said, will be the supreme test, one on which the Thaw attorneys are banking heavily to win their case. Thaw is well prepared for the ordeal. It is known, for he has been schooled and coached to the degree that his knowledge of psychiatry is extensive.

Dr. Evelyn Reabit, his former wife, is also prepared and ready to take the stand to prevent his release. She is acting in the interests of her son, Russell William Thaw.

The first witness to be called today by former Judge John M. Patterson, chief of Thaw's counsel, was T. Roy Phillips, a court stenographer and notary public in this city, who went to Kirkbride's asylum on May 28, 1919 and took Thaw's deposition in a civil action brought against him in the New York Supreme court by Fuller and Fuller, a firm of lawyers, who

had represented him in some phases of his case in New York. Their bill for services rendered was disputed by Thaw and they sued him to recover the balance they claimed was still due them.

(Thaw, one of his attorneys said, won the suit.)

Phillips testified that in seven hours of almost continuous questioning and answering Thaw acted in a normal manner. His testimony, transcribed amounted to over 29,000 words.

Dr. Wilson followed Phillips on

the stand. In his testimony the neurologist declared he considered the "twaddledum" and "tootsie" rabbit stories, which were scored against Thaw during the previous sessions of court, as of negative importance.

"Did you in making your diagnosis consider his fondness for rabbits as evidence of perversion," Patterson asked.

"I consider it as very flimsy evidence," Dr. Wilson replied.

Dr. Faulkner is taking his vacation by a trip to the near west. He will spend part of his time in Chicago.

The Presbyterian church at Whimburne will have special services on Easter day with good Easter music.

LET'S GO!

If you haven't tried Peter's Chicken-Liver Chopped Cream yet, now is the time to begin. The recipe is in the book "Let's Go!" 2-2-2.

CROMAR READY FINISHED OAK FLOORING

IS PROVING ITS SERVICE IN FIFTY HOMES IN THIS SECTION EVERY DAY

There are fifty or more homes in this section where CROMAR is proving its service every day. The wearing qualities bring very pleasing comments from the folks who have CROMAR in their homes. The home owners tell us that they are so thoroughly satisfied that when any new floors are re-laid, that CROMAR will be the material used.

CROMAR is so easy to lay—you can do it yourself in a day. It doesn't cost much and you are saved the cost of a high-priced painter as CROMAR comes all finished. All you have to do when you have it laid is go over it with a waxed cloth.

Let us show you how little it will cost you to have your floors laid—either new ones or old ones re-laid.

WILLYS-KNIGHT

ECHARD AUTO SALES

DAISY STREET, EAST END

CLEARFIELD, PENNA

Of all floors, CROMAR best bears the brunt of hard service

CROMAR is a floor to be used—used from the very day it is laid, with none of the nuisances usually involved in finishing a new-laid floor.

And it is to be used without fear of consequences, for it is finished to withstand the wear and tear of hard service. Yet, with all its tough serviceability, the CROMAR finish has a beauty and texture like that of fine furniture.

In contrast to all other oak flooring, everything but the actual laying of a CROMAR Oak Floor is done at the factory. The oak is specially selected, fully seasoned, then surfaced, filled, varnished, waxed by mechanical processes. The filler is forced into the pores of the wood so deeply and thoroughly that there can be no absorption of oil from the varnish. Thus the elasticity of the varnish is retained; it does not flake or show white from scars or scratches.

The edges, too, are finished, and the back completely sealed with a waterproof compound which prevents warping and shrinking.

Any good carpenter can lay your CROMAR Floor. When his job is done, the floor is ready for use. And with all the hand finishing expense eliminated, the cost of having this better floor is surprisingly little. Your lumber dealer can supply you. Let us send you literature on this interesting subject.

**"THE SIX DAYS" FEATURING
MOSES AND THE TEN COMMAND-
MENTS. DRIGGS TOMORROW**

Starting tomorrow and for two suc-
cessive days there will be shown at
the Driggs. This is the most magnifi-
cent film dramatic spectacle ever yet
attempted for the picture screen. This
picture is based on the greatest book
of all times, the Old Testament, and
makes possible for the first time such
biblical and historical stories as the
creation of the world, Adam and Eve
in the Garden of Eden, the slaying of
Abel by his brother Cain, the story
of Joseph, the story of the twelve
apostles, and the deluge of the
world. More than 100 of the court
of the world, and all the other
great scenes of the great
Old Testament. The great
story of the fathers, the
building of the Red
Sea, the destruction of
Sodom and Gomorrah, and
the story of the great
war of the world.

production is playing in Pittsburgh,
Boston and other cities for "extended
runs and will be presented at the
Driggs with the same wonderful mu-
sical setting as in all the larger cities.

Philippines Are Not Yet Ready For Freedom, Says General Wood

Washington, April 15.—Filipino
are not yet prepared for independence
and to grant them their freedom how-
ever would be "a heartless betrayal of our
trust," and "turn 12,000,000 people
over to strife and disorder in the near
future," Gov. Gen. Leonard Wood to-
day informed Secretary of War Weeks
in a long cablegram reporting on con-
ditions in the islands.
"They are not yet prepared to as-
sume the responsibilities of indepen-
dence," said Wood, "either from the

Easter Frocks of Many Colors Radiate Season's Message

Bright colors, of course. That's the spirit of
Easter. The return to the brighter colors after
the winter season's drabness. And where will
you find more beautiful frocks than these we are
showing?
The sturdy serge made up in the most becom-
ing styles; the sheer silks that bring a breath of
cherry blossoms and bamboo; the clinging crepes
that are light and airy—all these are made up in
styles that accentuate the new demands for slim-
ness.
And your Easter frock is waiting for you.
We'll be glad to show you how well you will look
for the parade at a very low cost.

JACK PICKFORD

—in—
(Based on W. B. M. Ferguson's
Novel of the same name)
Innocent's Three

THE GIRL—As pure and sweet as a baby's smile,
fragrant with daintiness and symbol of all that
makes Kentucky's womanhood revered at home
and abroad.
THE BOY—Young, impetuous and with an inherent
faith in all mankind; clean-minded, honest al-
most to a fault; loyal to the point of personal
peril.
THE HORSE—Big and upstanding, kindly of con-
fession as the Blue Grass winds, gentle as the
zephyrs, yet as staunch-hearted and as com-
pact as any jungle beast.
THE THREE—In a Jack Pickford photoplay alive
with action; so thrilling that it hurts, so entranc-
ing that it holds. A great star in a great story

because this is strictly a pure food restaurant. We serve nothing that is not tested by us for freshness, purity and quality. The cooking and the service, also, are what you demand in your own home. Could you ask more?

JORDAN'S

Coccy for Tonight's Tea Table

This morning an Easter play was presented in chapel at the Third Ward school which was written by Mary Elizabeth Gearhart, daughter of Mr. and Mrs. L. A. Gearhart, of Tropic. The young play-wright not only wrote this play but she directed it and also designed the costumes. This seems to be very remarkable for a fourth grade pupil. The "True Blue" Sunday School class of the Presbyterian church at Wabash gave a delightful musical entertainment this week at which they cleared over sixty dollars for the benefit of the church. Helen Johnston was a Coalport last week. Lloyd Breth visited with his par-

ents in Mahaffey over Sunday. Mrs. I. L. Roberts of Mahaffey returned home after spending several days with relatives in Irvona. Mrs. Fred Remick, Jr., and Miss Bertha Hanson, of Winburne, spent yesterday in town. Mr. and Mrs. W. C. Spackman and family have moved from Reed street to 109 W. Third avenue. Mrs. K. L. Fullerton and son Edward of New Castle, are visiting friends at Hyde. Edgar Martin of Johnstown, called upon friends in town yesterday. Blair Snoko, son of Mrs. Melissa Snoko, was unfortunate enough to

YOU NEVER GET ENOUGH

of that new Chockberry flavor. That's why we use it triple strength and serve it into Pler's Chockberry Cheering Gum. Say, "Chock-check-Chockberry!"

fall from a swing at the Children's Home and break his arm. He was taken to the hospital where it was found to be a very bad break. George Young's family are moving into one of the Healy and Sands Apartments this week. Miss Delera Roberts is back after visiting her parents in Mahaffey for a few days. The Sulphur Baths have been moved from 146 W. Market street to 207 Reed street.

"My Rheumatism is gone -"

"THERE are thousands of you men and women, just like I once was—slaves to rheumatism, muscle pains, joint pains, and horrible stiffness. I had this wrong idea about rheumatism for years. I didn't realize that increasing blood-cells had the effect of completely knocking out rheumatic impurities from the system. That is why I began using S.S.S. Today I have the strength I used to have years ago! I don't use my crutches any more." S.S.S. makes people talk about themselves the way it builds up their strength. Start S.S.S. today for that rheumatism. You'll feel the difference shortly.

S.S.S. is sold at all good drug stores in two sizes. The larger size is more economical.

**S.S.S. The World's Best
Blood Medicine**

They all say: "When you buy it at Smith's it is sure to be good."

It Is House Cleaning Time

You are now ready for that new furniture. I have it—Linoleums, Porch Matting, Rugs, Suites for sun parlors, a new Medicine Cabinet for your bath room, Refrigerators, Kitchen Cabinets, a new Bed or Mattress, Porch Swings, Chairs and Rockers, and other things too numerous to mention.

Buy here and save money.

Read the "sayings" in corners of this Ad.

Here in Many Choice Models of Plaids

In the much wanted Tans and Greys.

One of the cleverest things fashion does this spring is to combine colors—and the Polair Cloth, Plaid Coats are a true reproduction of the highest class Sport Models seen in New York. Various shades of Plaids are seen in the cleverest and smartest of fashions. The value is exceptional in every sense of the word. Let us show you these Coats, you will be delighted.

\$14.75

Leonardson's for Smart Styles and Economical Prices.

Appealing Easter Lillies

RESPLENDENT in the spirit of Easter is a beautiful floral offering. Especially so, if you will come and see what we have for you.

We suggest Lilies as most appropriate for the occasion, but the endless variety offered here gives you the choice of your desires.

Laughing little Tulip blossoms, sturdy spikes of the hyacinth, the bell shaped narcissus, the atmosphere of richness in the roses, the pink radiance of the LADDIE carnation, the sweetly fragrant carnation, the perky little faces in the violet corsages—these are just a few of the things we have to make your Easter a delightful season of making brightness for others.

SPECIAL DOLLAR BOX AGAIN THIS EASTER

These boxes were planned for you long ago. They are being brought to the height of their blossoming in time for Easter and are the most wonderful thing that any florist in the section has ever produced.
